

Xpeditor with Content Management

Billing Documents availability at your fingertips

Complement your trusted Xpeditor solution with a seamlessly integrated Content Management package. The Content Management solution will empower you to centralize your billing documents, by means of scanning and eDocument import. The centralized documents are easily accessible through Xpeditor and/or an independent browser based application. The comprehensive solution can be further enhanced with a customized document delivery workflow.

Capture and Centralize All Your Billing Documents

- ◆ A Document Imaging solution
Scan any and all hardcopy documents (e.g. Charts, ABN)
Industry-leading scanners with maintenance sized to volume
- ◆ An eDocument solution
Automagically, import any and all electronic documents
(e.g. Lockbox EOBs and Denials)
- ◆ An eForm solution
Replace generic forms with customized eForms
Map eForm fields to index values

Easily & Securely Access Your Captured Billing Content

Access Content Using an intuitive browser-based thin client

- ◆ Retrieve content by one or multiple index values
- ◆ Apply electronic annotations
- ◆ Benefit from an extensive audit trail
- ◆ Take Advantage of comprehensive role-based security

Access Content directly from your line-of-business application (e.g. Xpeditor)

- ◆ Map a keystroke or mouse-click to enable automatic pop-up related content
- ◆ No need to toggle between applications

Put Billing Documents to Work for You!

Drive the delivery of captured content via customized Workflow solutions

- ◆ Customized Coding Workflow
- ◆ Customized Registration Workflow
- ◆ Customized Receipt and Denial Workflow
- ◆ Customized 'You design it, we build it' Workflow

Investigation and correction of claim errors is one of the most labor-intensive processes in your organization.

Wouldn't you like to empower your clerks to resolve claim issues from their desks?

With Image-Enabled Xpeditor, your clerks will have complete patient chart availability at their fingertips to resolve and release claims within Xpeditor for billing.
