Community Forum on the New EDI Portal

Our EDI clients have asked us to provide a way to network and exchange ideas with other Xpeditor users. We listened and created the Community Forum, a message board on the Portal that allows Xpeditor users to contribute to different conversations about topics relevant to their business office, such as Xpeditor edit changes, Remittance Management functionality, RAC Audit Issues, and more.

Join the conversation!

The screenshot shows the Quadox Community Forum interface. At the top, there is a navigation bar with links for SUPPORT, REPORTS, DOCUMENTATION, APPLICATIONS, COMMUNITY, SETTINGS, and SHOP. The main content area is titled 'Forums' and features a decorative header image of sliced cucumbers. Below the header, there are two sections: 'Quadox Products' and 'Quadox Resources'. Each section contains a table of discussion threads with columns for Name, Last Post, Total Threads, Total Posts, and Total Views.
