

# Accelerate Your Revenue Cycle

—Now with Real-time Error Resolution in Epic

## XPEDITOR'S HOST INTERFACE MODULE

Xpeditor's Host Interface Module (HIM) optimized for Epic seamlessly integrates claims generated by the Epic Resolute Billing system with all facets of Xpeditor into a single process, applying industry-leading Xpeditor claims management edits and rules for cleaner claims, while retaining workflow and response data in the Epic Resolute system.

Now, Quadax clients using Epic 2015 have a special advantage! HIM's Accelerated Claim Reconciliation allows users to perform **real-time error resolution** in Epic. By returning the claim validation and response almost immediately, Quadax eliminates the need to wait for the next batch, increasing your efficiency and accelerating your reimbursement.

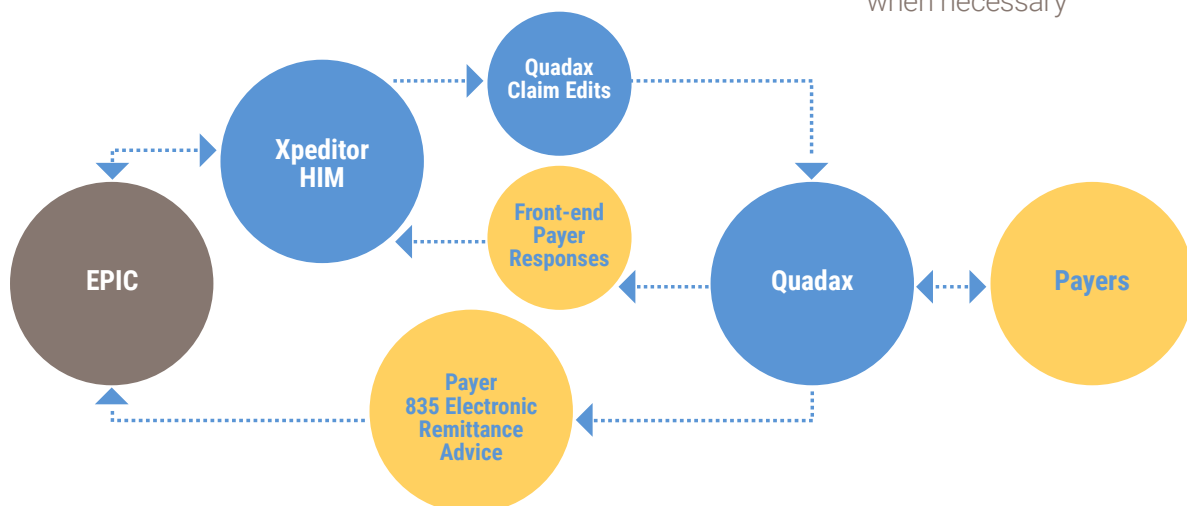

## ENHANCED EFFICIENCY

- Save staff time by eliminating duplicate effort between systems
- Resolve errors real-time in Epic, correcting claims at the source
- Use Xpeditor as a communication conduit of edits, payer responses (999, 277, 835), and reports
- Take advantage of greater automation: each clean claim releases automatically for delivery to payers without manual intervention, notifying Epic of the release
- Move the capture and repeatable repair of claim processing problems earlier in the workflow, empowering process improvement

## RAPID ADJUDICATION AND PAYMENT

- Benefit from Xpeditor's comprehensive, always-up-to-date library of claim processing edits and rules, which enable **more than 99% of Xpeditor claims** to be accepted by payers on the first pass
- Make efficient use of Xpeditor for client-defined workflow exceptions permitting the fastest resolution when necessary

Claims Management

\*2019 Best in KLAS: Software and Services report

At Quadax, neither our software nor our business model is rigid.
