

Is Your Claims Follow-Up Strategy Losing You Money?

ADVANCED CLAIM STATUS BY QUADAX

Unnecessary follow-up can be costly—eroding profit margins and resulting in missed opportunity. You need to know when to take action and when not to, so your follow-up staff can target those claims that need to be worked, without wasted effort. Advanced Claim Status™ (ACS™) by Quadax is an automated solution giving you actionable claim status information sooner so your staff can work smarter! Using web-bot technology, this direct-to-payer-portal system replaces or supplements standard 276/277 ANSI transactions in order to provide a richer, more actionable data set as soon as one day post-billing.

Don't touch!

Processing claims-related business transactions manually is a sure way to experience revenue leakage. According to the 2017 CAQH Index®, switching to an electronic process for Claim Status Inquiry can yield an 83% cost savings over manual processing, which may include telephone calls and web searches performed one-by-one by follow-up staff. Reduce your cost to collect with Advanced Claim Status by Quadax -- automated, rules-based, data collection that can be directly integrated into your HIS/PMS, or feed Xpeditor's automated rules engine and actionable results reporting.

Claims Management

QUADAX ACS EMPOWERS YOU TO:

- Automate and route claim follow-up workflows
- Accelerate accounts receivable and predict cash flows
- Avoid unnecessary follow-up on "in process" claims
- Work denials and requests for additional documentation proactively
- Identify and make process improvements

ENRICHED CLAIM STATUS DATA INCLUDES:

- Payment information prior to remittance
- Detailed information on pending/suspended claims, including requested information
- Line item details with denial reason and proprietary remark codes
- Patient liability, non-covered line items, and contractual adjustments – at both the claim and line item level
- Additional payer communications

*2018 Best in KLAS: Software and Services report

At Quadax, neither our software nor our business model is rigid. So whether your revenue cycle needs are narrowly defined or more all-encompassing, we will tailor our people-based services to meet your specific requirements, guided by our best-practice expertise, for your most effective, productive outcomes.
